DETAILED ACTION

1. Receipt of the papers filed on April 1, 2005, is acknowledged. New claims 11-20 have been presented. Claims 1-20 are pending.

Election/Restrictions

2. Newly submitted claims 11-20 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 11-20 are directed to a subcombination usable with the subcombination recited in claims 1-10.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-20 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the prior art shows that apparatus with a polishing pad, an electrically conductive surface proximate the polishing pad, at least one conducting element disposed within the conductive surface, a workpiece carrier, and a power source. The prior art of record does not disclose the suggest apparatus in which the electrically surface has more than one zone wherein the zones are separated by one or more

insulators, at least one conducting element within each zone, and a plurality of power sources each having a first positive output connected to the conducting element and a second negative output connected to the electrically conductive surface contained within each of the zones of the conductive surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Applicant is given one month to cancel claims to the withdrawn invention.
